

# PsychConsult<sup>®</sup> Provider Clinical Documentation and Treatment Planning

PsychConsult's Clinical Documentation creates a fully automated Electronic Health Record (EHR), enabling clinicians to edit, electronically sign, and secure documents to comply with organizational policies. The comprehensive treatment plan allows clinicians to identify problems and their associated objectives and goals. Versioning capabilities provide a mechanism for demonstrating treatment progression. Together, clinical documentation and treatment planning save time, improve the continuity and quality of care, and assist your organization in meeting accreditation requirements.

## Clinical Documentation

- ▶ Create and view clinical documents for assessment, on-going treatment and discharge for all levels of service.
- ▶ Use standard data entry fields, such as check boxes and drop-down lists, to ensure consistent data entry.
- ▶ Sign documents electronically using password authentication.
- ▶ Grant or restrict user access to consumers' documents based on security permissions.
- ▶ Design document templates specific to scheduled clinical services.
- ▶ Enforce rules to prevent bills from being produced when documentation is incomplete.
- ▶ Require co-signatures and automatically route documents to the co-signer.
- ▶ Build text from simple check boxes and drop-down choices.

Document Status: In-progress

PHQ-9

Patient Health Questionnaire-9 (PHQ-9)

Over the last 2 weeks, how often have you been bothered by any of the following problems?

	Not at all	Several days	More than half the days	Nearly every day
1. Little interest or pleasure in doing things	<input type="radio"/> 0	<input type="radio"/> 1	<input type="radio"/> 2	<input checked="" type="radio"/> 3
2. Feeling down, depressed, or hopeless	<input type="radio"/> 0	<input type="radio"/> 1	<input checked="" type="radio"/> 2	<input type="radio"/> 3
3. Trouble falling or staying asleep, or sleeping too much	<input type="radio"/> 0	<input type="radio"/> 1	<input type="radio"/> 2	<input checked="" type="radio"/> 3
4. Feeling tired or having little energy	<input type="radio"/> 0	<input checked="" type="radio"/> 1	<input type="radio"/> 2	<input type="radio"/> 3
5. Poor appetite or overeating	<input checked="" type="radio"/> 0	<input type="radio"/> 1	<input type="radio"/> 2	<input type="radio"/> 3
6. Feeling bad about yourself - or that you are a failure or have let yourself or your family down	<input type="radio"/> 0	<input type="radio"/> 1	<input checked="" type="radio"/> 2	<input type="radio"/> 3
7. Troubles concentrating on things, such as reading the newspaper or watching television	<input type="radio"/> 0	<input type="radio"/> 1	<input checked="" type="radio"/> 2	<input type="radio"/> 3
8. Moving or speaking so slowly that other people could have noticed? or the opposite-being so fidgety or restless that you have been moving around a lot more than usual	<input type="radio"/> 0	<input type="radio"/> 1	<input checked="" type="radio"/> 2	<input type="radio"/> 3
9. thoughts that you would be better off dead or of hurting yourself in some way	<input type="radio"/> 0	<input checked="" type="radio"/> 1	<input type="radio"/> 2	<input type="radio"/> 3
For Office Coding	0	2	8	6
= Total Score: 16				

How difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?

Not Difficult     Somewhat Difficult     Very Difficult     Extremely Difficult

## Clinical Documentation and Treatment Planning

### Treatment Planning

- ▶ Define elements, structure, and layouts to reflect your organization's requirements.
- ▶ Create multi-disciplinary and/or program-specific plans.
- ▶ Modify and save preconfigured symptoms and problems to create customized content.
- ▶ Augment content with free text to individualize plans.
- ▶ Incorporate symptoms and problems captured in initial assessments.
- ▶ Assign coordinators to create and manage tasks.
- ▶ Route treatment plans to assigned clinicians for approval and review automatically.
- ▶ Integrate content with progress notes and clinical documents.
- ▶ Maintain multiple versions of treatment plans.
- ▶ Capture consumer and clinician digital signatures.
- ▶ Notify staff of date-sensitive events, such as treatment plan creation, signatures and reviews.

The screenshot displays the PsychConsult software interface. On the left is a navigation menu with sections: View (Treatment Plan List, Treatment Plan, Demographics, Diagnosis, Strengths, Review, Preview, Correction Log), File (Save, Delete, Print, Refresh, Spell Check, Revert), New (Short Term Goals, Long Term Goals), and Administrative (Plan Properties, Resize Panes, Treatment Team, Signatures, Correct Plan, Review Plan, Error Plan). The main window shows a patient record for 'OAKWOOD/MH/ADULT/OP' with a version of 50, coordinated by 'Green, Tracy', and an effective date of 11/27/2013. It includes a review frequency section and a tree view under '1. Primary Treatment' containing 'Short Term Goals', 'Interventions', and 'Long Term Goals'. The right pane provides a detailed view of a goal, including start and target dates, status, a description of the disorder, and a notes section.
